

Model Railway Show

The Model Railroad Club of Toronto

Romance of the Rails

Welcome to our 3,200 sq. ft. model railway! We've added new bridges, industrial scenes, super-detailing and refinements to the signal system. Look for the new town of Port Coleman and harbour under construction! Our digital control system sends trains through cities, towns and countryside, popping in and out of tunnels and crossing over bridges, with lots of activity in the railyards. There's lots to do and all proceeds go into construction.

Please pass this flyer on to family and friends!

Sunday Feb. 1/26 Sunday Feb. 15/26

Monday Feb. 16/26 (Family Day) Sunday Feb. 22/26

All days 11am - 4pm

Join us for great family fun!

The Central Ontario Railway, a world in miniature, depicts Canadian railroading in the late 1950's during the transition from steam to diesel locomotives. It is an "O" Scale (1/4"= 1 ft.) model railroad located in a 103' by 32' room with trains traveling over 5,000 feet of track, connecting two major cities, each with full yard and engine facilities. Canadian National and Canadian Pacific trains appear regularly on the Central Ontario Railway.
